

Square Terminal for All Ginza Sales

We will use Square Terminals at all sales locations during Ginza:

- North/South Gates
- Refreshments and Food Concessions
- Chicken Sales
- Beer Booth
- Waza
- The South Gate will assist the Raffle booth

Ginza cashiers are required to use the Square terminal to record every sales transaction* whether it is a credit card, debit card, cash or check. Using a simple graphical screen, every item will be recorded as a part of the sales transaction. (* the only exception is that the North/South gates and the Raffle Booth can accept cash without using the Square terminal - these sales will be reconciled after the fact).

A Ginza Square Tutorial website has been created, with video demonstrations, so all cashiers can go through the training at your own pace.

To be a cashier at Ginza a volunteer must be 16 or older - except in the Beer booth where every volunteer must be 21 or older.
